With a transponder

* Reduction for toll transponder T-pass at the site of M-4 "Don" km 21 - km 211 in the Moscow region is 50% day and 30% night, except for the section km 93 - km 211 where to transport means III and IV categories in day and night time discount of 30%. Discounts are valid through February 28, 2018.

** Reduction for toll transponder T-pass at the site of M-4 "Don" km 517 - km 544 in the Novaya Usman District, Voronezh Region is 50% day to transport means III and IV categories

Should you be a member of the State Company “Russian Highways” Loyalty Program, you can get an extra discount when using a transponder. A discount of 3 to 10 % shall be applicable upon joining the Program and shall be valid for a certain period and certain device within one (1) calendar year of when points for passage are accumulated.

The transport vehicle type and tariffication shall be determined directly at the Toll Station. The change of a vehicle type shall occur depending on the overall height, given the cargo weight carried aboard and the number of axles. Accessories and luggage fixed on the roofs of Type 1 and 2 transport vehicles shall not be included in the overall height.

- Accessories and luggage carried on the roofs of Type 1 and 2 transport vehicles shall not be included in the overall height;
- A transport vehicle with special technical devices such as an climate control unit fixed on the roof shall be classified based on the highest point;
- A Category 1 transport vehicle, whose height, including the cargo carried in the body, exceeds 2.6 meters, shall be classified as a Category 2 vehicle.
- A Category 1 transport vehicle with a trailer, whose height, including the cargo carried in the body, exceeds 2.6 meters, shall be classified as a Category 2 vehicle.
- A transport vehicle with snow or ice on its roof, affecting the calculation of the overall height, shall be classified based on the highest point;
- Type 3 and 4 transport vehicles whose structural design allows for lifting one of the rear axles to detach it from the roadway shall be classified according to the number of axes the vehicle actually has, regardless of axle positions;
- Hitch-towed transport vehicles shall be classified as a single vehicle according to the classification characteristics of the highest vehicle, including the total number of axles;
- Rope-towed transport vehicles shall be classified as two independent vehicles paid separately.

In case of controversy when tolling, you shall contact the Sales and Service Center with a written claim against the toll fee collector servicing the segment within 30 calendar days of the disputed transaction. A failure to receive a written claim within the specified deadlines shall constitute the User's consent to such an operation.

Any possible adjustment of the EPD personal account shall occur within 2 or 3 business days. In case of inconsistency of the transport vehicle category and type (for example, because of the cargo carried on the roof), owners of Electronic Pass Devices may email a claim to the electronic address (marked “Passage Tariffication”).
